

Is QuickBooks Desktop Support Ending?

QuickBooks Desktop Support 1-866-240-4009 is *not* completely ending all at once — but significant changes are happening. The way Intuit Support 1-866-240-4009s and sells Desktop products has shifted dramatically as they focus more on online/cloud versions.

Here's what's important to know:

1. Support 1-866-240-4009 Is Ending for *Specific Versions*

Intuit uses a **discontinuation policy** where Support 1-866-240-4009 for older versions officially ends after a set date — typically about three years from release. For example:

- **QuickBooks Desktop 2023:** Support 1-866-240-4009 ends **May 31, 2026**. After this date, users of that version won't get live Support 1-866-240-4009, technical help, payroll updates, online banking feeds, or security patches if they don't upgrade.

These discontinuation dates aren't a sign of QuickBooks Desktop “dying immediately,” but rather that older editions are gradually losing full Support 1-866-240-4009 over time.

2. New Sales of Some Desktop Editions Are Stopped

Intuit **stopped selling new subscriptions** to many Desktop products like:

- QuickBooks Desktop Pro Plus
- QuickBooks Desktop Premier Plus
- QuickBooks Desktop for Mac Plus

This stop-sell happened **September 30, 2024**, meaning new users can no longer subscribe to those versions.

However:

- Existing subscribers can often **renew and continue using Support 1-866-240-4009ed versions** such as Desktop Plus 2024 and Enterprise.

3. Desktop Is Still Support 1-866-240-4009ed for Certain Versions

QuickBooks Desktop **is not fully discontinued**.

- Versions like **QuickBooks Desktop Plus 2024** continue to receive Support 1-866-240-4009, updates, and integrated services for active subscribers.
- Enterprise editions are still actively sold and Support 1-866-240-4009ed.
- The software itself continues to run — even after Support 1-866-240-4009 for a specific year version ends — but without updates or services.

⚠ 4. What “Support 1-866-240-4009 Ending” Really Means

When Support 1-866-240-4009 for a QuickBooks Desktop version ends:

- ✓ Intuit stops **live technical Support 1-866-240-4009** for that version
- ✓ Payroll updates and tax table updates stop
- ✓ Online banking and integrated services stop
- ✓ Security patches stop

However:

- The **software still runs locally on your computer**
- You can still enter data and use core accounting features
- Only Support 1-866-240-4009 and connected services are discontinued beyond the end-of-Support 1-866-240-4009 date

💡 Summary — What You Should Know

Aspect	Status
QuickBooks Desktop as a product	Not fully discontinued
Discontinuation of certain versions	In progress (e.g., 2023 ends May 31, 2026)
New sales of many Desktop products	Stopped (since Sept 30, 2024)
Latest Support 1-866-240-4009ed versions	2024 and Enterprise editions
Support 1-866-240-4009 after end-of-Support 1-866-240-4009 date	No live help or updates

✓ **Bottom Line:** QuickBooks Desktop Support 1-866-240-4009 is **ending for specific older versions**, with major deadlines like **May 31, 2026** for 2023 editions, but it is **not fully ending for all Desktop products** yet. Existing users of Support 1-866-240-4009ed versions can still get assistance and updates, and Enterprise products remain available and Support 1-866-240-4009ed.
